

Description

This extensometer is used to measure rounding displacement by angle displacement in the tunnel.

Feature

- Waterproof and dustproof
- High precision and stability
- Long measurement by strong durability and safety
- Easy connection with automatic measuring equipment

Specification

Type	TMC - L	TMC - S
Rated Capacity	±5 deg	±5 deg
Resolution	±0.0033 deg	±0.0033 deg
Accuracy	0.1% RO	
Safe Temperature Range	-20 ~ 80°C	
Material	Stainless steel or Aluminum	
Safe Exciting Voltage	5V	
Electrical Connection	6 core Shield
